

C. Amendment to the Claims

Please cancel claims 1-11 without prejudice or disclaimer and kindly add  
new claim 12.

1-11. (Cancelled).

12. (Newly Added) A luminescence device having a luminescence layer  
comprising a metal coordination compound represented by any one of the following  
formulas (1) to (4):

A2

wherein:

(i) compounds of the formulas (1) and (2) are independently substituted with an alkyl group, an alkoxy group or a trimethylsilyl group, which is optionally substituted with a halogen;

(ii) compounds of the formulas (3) and (4) are optionally and independently substituted with an alkyl group, an alkoxy group or a trimethylsilyl group, which is optionally substituted with a halogen; and

(iii) aromatic groups in the formulas (1) to (4) independently have a CH group, which is optionally substituted with a nitrogen.
